

THE BEST OF HYALURONIC ACID

The **ULTIMATE**
in facial contouring
has arrived

NEW TEOSYAL® Ultimate works in harmony with facial characteristics by increasing subcutaneous tissues, creating subtle additional volume and immediately correcting deep skin depressions. Supplied with a 21G needle and 3mL of hyaluronic acid (22mg/g), TEOSYAL® Ultimate has been specifically designed to provide a volume solution for larger-scale facial remodelling, offering the prospect of achieving a complete non-surgical facelift for some patients. Based on the award-winning TEOSYAL® range of injectable dermal products, TEOSYAL® Ultimate offers optimum safety and immediate, long-lasting natural results.

TEOSYAL Ultimate
Adding volume to the TEOSYAL range
